PROFESSIONAL SUMMARY

Senior Mobile Engineer specializing in cross-platform development using Flutter (iOS & Android). Experienced in implementing Clean Architecture, SOLID principles, and state management (BLoC, GetX, Provider). Strong technical skills in complex API integration, CI/CD implementation, and comprehensive application testing (Unit, Widget, & Integration Testing). Computer Engineering graduate from ITS with a background in Machine Learning and Backend development.

WORK EXPERIENCE

Senior Mobile Engineer — PT Gamatecha Solusi Nusantara

July 2024 – Present

Full-time (Contract)

- Leading multiplatform mobile application development and making key architectural decisions.
- Implementing BLoC and GetX for state management and building CI/CD pipelines for automated deployment.
- Developing scalable applications with complex API integrations and high-performance optimization.

Software Engineer Trainee — ETHERVAL IT Consultancy

Oct 2023 – Dec 2023

Apprenticeship

- Developed front-end web applications using React.js and Vaadin.
- Participated in system design and implemented software engineering best practices.

Mobile Developer (Flutter) — Suitmedia Digital Agency

Feb 2023 – June 2023

Internship

- Developed multiplatform e-commerce applications using Flutter and GetX.
- Conducted research on chat module implementation for mobile integration.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Engineering — Sepuluh Nopember Institute of Technology (ITS)

2019 – 2023

GPA: 3.37 / 4.00

Thesis: Elective Course Recommendation and Enrichment using Neural Collaborative Filtering and Neural Content-Based Filtering.

Machine Learning Cohort — Bangkit Academy (Google, GoTo, Traveloka)

2022

Received **Google TensorFlow Developer Certification**. Led Capstone project with Indosat Ooredoo to build translation ML models.

TECHNICAL SKILLS

Mobile: Flutter, Dart, Kotlin, Swift, Jetpack Compose, BLoC, GetX, Provider, Clean Architecture.

Web & Backend: React.js, TypeScript, Node.js (Express, Hapi), Go, NestJS, Python.

Tools & DB: Git, CI/CD (GitHub Actions, Codemagic), Docker, NGINX, Redis, PostgreSQL, MySQL, Firebase.

Testing: TDD, Unit Testing, Widget Testing, Integration Testing.

SELECTED PROJECTS

Omnisource (SaaS Platform) & Baharkam Gateway

Built real-time operational management SaaS platforms and comprehensive digital solutions for the National Police (Baharkam POLRI).

Portal Humas Presisi

Official police PR portal for exclusive law enforcement news access and national police activity aggregation using Flutter.

Ditonton & Movie App

Industry-standard movie applications utilizing Clean Architecture, Modularization, Dependency Injection, and TDD (Flutter & Kotlin).

REST API Ecosystem

Developed various APIs (Notes, Forum, Certification) using Node.js, Express, and PostgreSQL with JWT Auth.

ORGANIZATION

Welfare Staff — Computer Engineering Student Association ITS

2021 – 2022

Facilitated student aspirations regarding academic and financial issues and provided study evaluation support.
